NTCC

COMPANY PROFILE

New Target Contracting Corp.

Building Protection.
Delivering Excellence.

QUALITY FOCUSED | SAFETY FIRST | TECHNICAL EXPERTISE | RELIABLE PARTNER

HIGH PERFORMANCE
Advanced chemical solutions for long-term durability and maximum protection.

WIDE RANGE
Comprehensive construction chemicals for all project requirements.

EXPERT SUPPORT
Technical expertise and on-site support from qualified professionals.

QUALITY ASSURED
Products tested to international standards for reliable performance.

SUSTAINABLE
Environmentally responsible solutions that support a sustainable future.

SAFETY FIRST

OUR MISSION
Deliver innovative and reliable protection solutions that enhance the durability, safety, and value of every structure.

OUR COMMITMENT
Quality products, professional service, and lasting partnerships built on trust.

SAUDI ARABIA
Proudly serving the Kingdom with world-class construction chemical solutions.

LOCAL EXPERTISE NATIONAL REACH | INNOVATIVE SOLUTIONS LASTING PROTECTION | COMPLIANCE & RELIABILITY | PARTNERS IN SUCCESS

ABOUT NTCC

26
YEARS

Leading Engineering Protection Solutions in Saudi Arabia Since 2000.

Since entering the industry in 2000, New Target Contracting Corporation (NTCC) has operated as a dependable specialist contractor across the Kingdom of Saudi Arabia. We are dedicated to providing high-performance construction-chemical and building-finishing services, driven by technical excellence and a commitment to industrial asset protection.

- WATERPROOFING
- CORROSION PROTECTION
- INDUSTRIAL FLOORING
- CONCRETE REPAIR
- PROTECTIVE COATINGS
- FINISHING WORKS

TECHNICAL CAPABILITY

Our strength lies in our people. NTCC operates through a highly qualified team of engineers and skilled technicians who bring specialized knowledge to every project, ensuring management capability and technical precision in construction-chemical applications.

VISION, MISSION & OBJECTIVES

VISION

To be a trusted specialist contractor for engineering protection and finishing solutions in Saudi Arabia.

MISSION

To deliver construction-chemical and building-finishing services through qualified engineers, skilled technicians, and client-focused teamwork.

STRATEGIC OBJECTIVES

Collaborative Excellence

Work collaboratively with clients to achieve the best possible end results and ensure maximum customer satisfaction.

Preferred Specialist

Maintain a strong position among specialist contractors and become the clients' first choice in our areas of expertise.

Focusing on becoming a trusted partner through high-quality engineering protection solutions across the Kingdom.

NTCC

مؤسسة الهدف الجديد للمقاولات

New Target Contracting Corp.

www.ntccsa.com

CORE SERVICES

NTCC provides high-performance engineering protection solutions tailored for Saudi Arabia's industrial and commercial infrastructure, utilizing advanced chemical systems and qualified technical expertise.

WATERPROOFING

- Steel & Concrete Roof Systems
- Water & Sewage Tank Lining
- Waterpark Waterproofing
- Metal Roof Rehabilitation

POLYUREA SOLUTIONS

- Hot-Applied Polyurea Coating
- Cold-Applied Polyurea Systems
- Polyurea Decorative Flooring
- High-Performance Protection

INDUSTRIAL FLOORING

- High-Build Epoxy Coating
- Heavy-Duty Polyurethane
- Epoxy Screed & Self-Leveling
- Food-Grade Floor Solutions

STRUCTURAL REPAIR

- Concrete Structural Repair
- Expansion Joint Repair
- High-Pressure Crack Injection
- Joint Sealing & Grouting

PROTECTIVE COATINGS

- Anti-Rust & Corrosion Protection
- Fire Intumescent Coatings
- Industrial Asset Protection
- Chemical Resistant Lining

SPECIALIZED WORKS

- Thermal Insulation Systems
- Solar Reflective Coatings
- Gypsum Board & Finishing
- Soundproof Wall & Floor Panels

INDUSTRIES SERVED

NTCC provides specialized engineering protection and finishing solutions across a diverse range of sectors, supported by a proven track record of major projects in the Kingdom of Saudi Arabia.

LOGISTICS & DISTRIBUTION

Smart logistics centers and distribution hubs requiring high-performance flooring and roof protection.

REFERENCE: IMDAD / AL NAHDI

INDUSTRIAL & MANUFACTURING

Heavy-duty industrial facilities, factories, and workshops with specialized coating requirements.

REFERENCE: AL SALEM YORK

PHARMACEUTICAL & MEDICAL

Cleanroom environments, medical warehouses, and hospitals requiring hygienic epoxy and vinyl systems.

REFERENCE: JAMJOOM MEDICAL

FOOD & BEVERAGE

Processing plants and cold storage facilities with heavy-duty polyurethane and thermal solutions.

REFERENCE: MENABEV / PEPSI

EDUCATION & RESEARCH

University campuses, stores, and specialized halls requiring comprehensive waterproofing systems.

REFERENCE: KING ABDULAZIZ UNIVERSITY

GOVERNMENT & INFRASTRUCTURE

Major public works, transportation hubs, and iconic religious landmarks requiring engineering protection.

REFERENCE: AL HARAM AL SHARIF

HOSPITALITY & TOURISM

Hotel roof rehabilitation and specialized finishing works for premium hospitality developments.

REFERENCE: SEDCO / ELAF HOTEL

COMMERCIAL & RETAIL

Malls, showrooms, and parking structures requiring high-build epoxy and acoustic solutions.

REFERENCE: GALLERIA MALL

WAREHOUSING & STORAGE

Large-scale commercial storage facilities requiring anti-corrosion and floor leveling systems.

REFERENCE: ARABIAN SUPPLIES TRADING

AUTOMOTIVE FACILITIES

Workshops and showrooms requiring decorative polyurea and protective roof coatings.

REFERENCE: BMW / HYUNDAI SHOWROOMS

MAJOR CLIENTS

NTCC has built a legacy of trust with the Kingdom's most prominent organizations, delivering specialized engineering protection solutions for large-scale industrial, commercial, and government infrastructure projects.

MATERIAL PARTNERS

NTCC collaborates with globally recognized manufacturers and technology providers to ensure the highest standards of engineering protection. Our material selection is governed by technical compliance and long-term durability.

WATERPROOFING SYSTEMS

- BITUMINOUS
- PVC SYSTEMS
- TPO MEMBRANES
- LIQUID APPLIED
- THERMAL INSULATION
- JOINT SEALANTS

PROTECTIVE COATINGS

- POLYUREA
- EPOXY HIGH-BUILD
- POLYURETHANE
- ANTI-RUST
- FIRE PROOFING
- TANK LININGS

FLOORING SOLUTIONS

- SELF-LEVELING
- HEAVY DUTY PU
- EPOXY SCREED
- DECORATIVE
- VINYL FLOORS
- RAISED FLOORS

SPECIALIZED EQUIPMENT

- PRIMARY PARTNER: GRACO
- SPRAY SYSTEMS
- INJECTION PUMPS
- SURFACE PREP
- MIXING UNITS
- POWER TOOLS

Approved systems from leading global chemical and equipment manufacturers.

AL HARAM AL SHARIF / NEW MATAF

ENGINEERING PROTECTION CASE

CLIENT
Saudi Binladen Group

LOCATION
Makkah, Saudi Arabia

SCOPE OF WORK

NTCC was commissioned to provide critical engineering protection for one of the world's most significant religious sites. The project demanded extreme precision and high-performance materials suitable for high-traffic environments and intense thermal conditions.

- **Thermal Coating:** Specialized application for Mataf and external floor areas to manage solar heat absorption.
- **Waterproofing:** Comprehensive moisture protection system for structural integrity.
- **Thermal Insulation:** Advanced insulation system applied to Mataf floor and various areas within the Haram courtyards to maintain surface temperature stability and enhance pilgrim comfort.

TECHNICAL FOCUS

The project involved high-build coating systems designed for durability and aesthetic consistency. All systems were applied by NTCC's specialized technical teams under rigorous quality control standards to ensure the longevity of the Holy Mosque's infrastructure.

ENGINEERING FOCUS

NTCC provided an integrated protection solution for one of the world's most important religious sites, combining advanced thermal coatings, waterproofing systems, and thermal insulation for Mataf floor and various areas in the Haram courtyards to ensure long-term performance and pilgrim comfort.

Total Area

COMPREHENSIVE SCOPE

Metal Roof Waterproofing

Advanced liquid-applied systems ensuring full-surface integrity for critical storage environments.

Anti-Rust Protection

High-performance coating solutions to prevent structural degradation in industrial assets.

Corrosion Repair

Specialized structural rehabilitation of corroded elements to restore original strength.

Polyurea Top Protection

Hot-applied polyurea coating for extreme durability and long-term environmental resistance.

PROJECT PARAMETERS

TECHNICAL SPECIFICATIONS	
Client	Al Nahdi Medical Co.
Location	Jeddah, KSA
Facility Type	Smart Distribution DC
Primary Goal	Asset Lifecycle Protection

ENGINEERING FOCUS

NTCC provided an integrated protection solution for Saudi Arabia's most advanced pharmaceutical logistics facility, combining rapid-cure polyurea systems with precision anti-corrosion engineering.

14

FEATURED PROJECT:
ABU DAWOOD JDC WAREHOUSE

CLIENT & FACILITY

Abu Dawood JDC Central Warehouse

Jeddah, Kingdom of Saudi Arabia

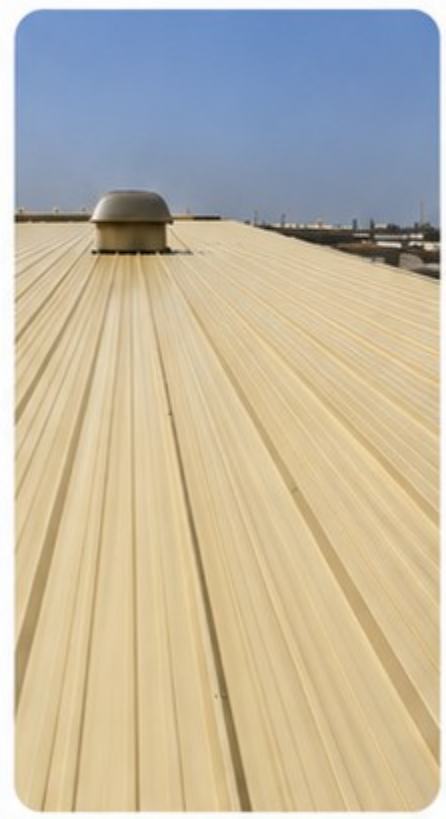

SCOPE OF ENGINEERING WORKS

- Comprehensive corrosion repair and rust protection system.
- Seams repair and selective replacement of corroded sheets.
- Waterproofing of side joints for complete structural integrity.
- Application of high-performance Polyurea top protection coating.

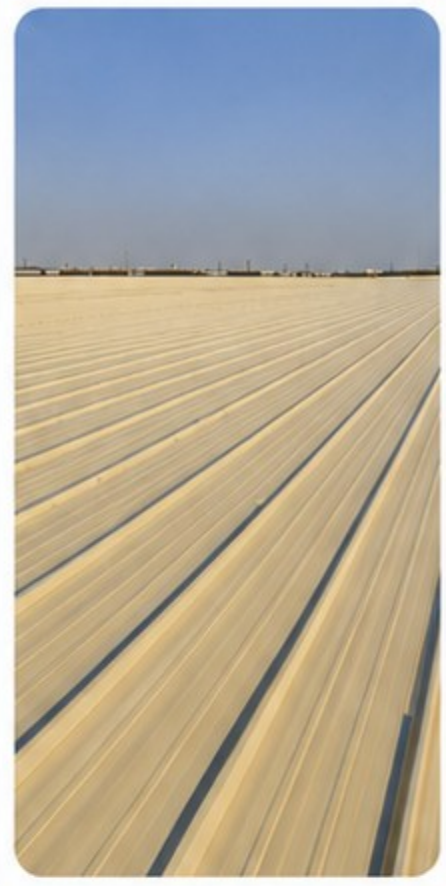

36,000

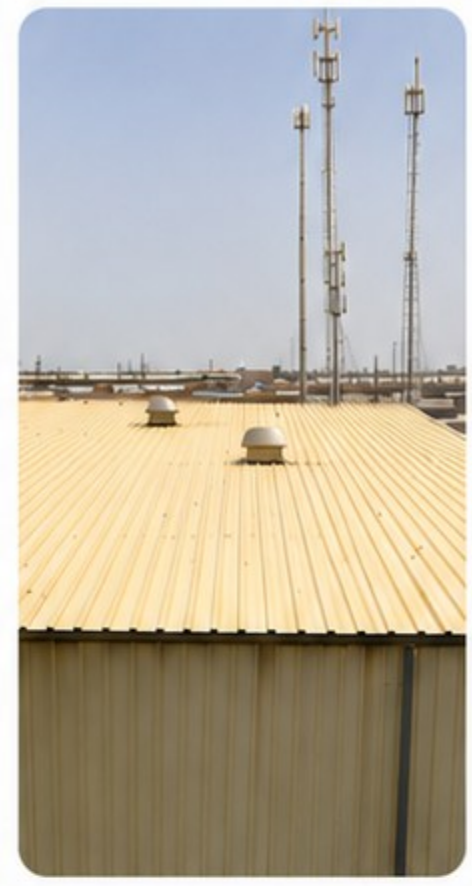

SQUARE METERS

Total area of industrial asset protection and rehabilitation delivered for the Jeddah Central Warehouse facility.

TECHNICAL EXECUTION STRATEGY

NTCC provided a turnkey engineering protection solution for Abu Dawood JDC, focusing on the rehabilitation of the warehouse envelope. The project involved the specialized treatment of corroded metal surfaces followed by the application of multi-layer protective systems.
The integration of polyurea top coatings ensures long-term resistance against harsh environmental factors and prevents further structural deterioration.

INDUSTRY SECTOR
Logistics & Distribution

REF: PROJECT SUMMARY
// PAGE 16

PROJECT HIGHLIGHTS

HIGH PERFORMANCE
Durable flooring systems engineered to withstand intensive operations and heavy loads.

THERMAL PROTECTION
Advanced cold store solutions ensuring temperature stability and long-term reliability.

CHEMICAL RESISTANCE
High resistance to chemicals, oils, and moisture for extended service life.

EFFICIENT EXECUTION
Delivered on schedule with minimal disruption to operations and maximum quality.

16

FEATURED PROJECT:
CLOCK TOWER MAKKAH

PROJECT PROFILE

LOCATION

Makkah, Kingdom of Saudi Arabia

SCOPE OF WORK

Supply & Application of Hot-Applied Polyurea Coating

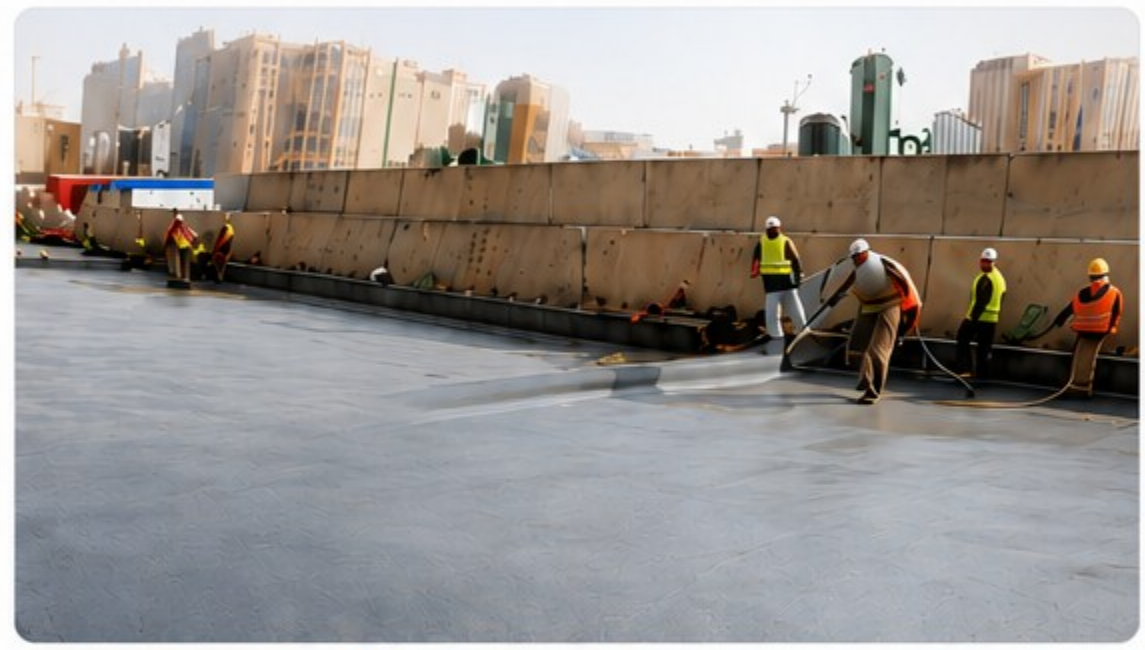

FACILITY TYPE

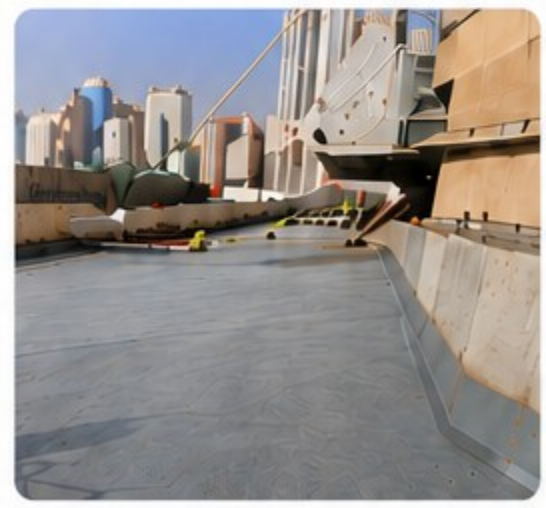

Iconic Landmark / Hospitality / Commercial

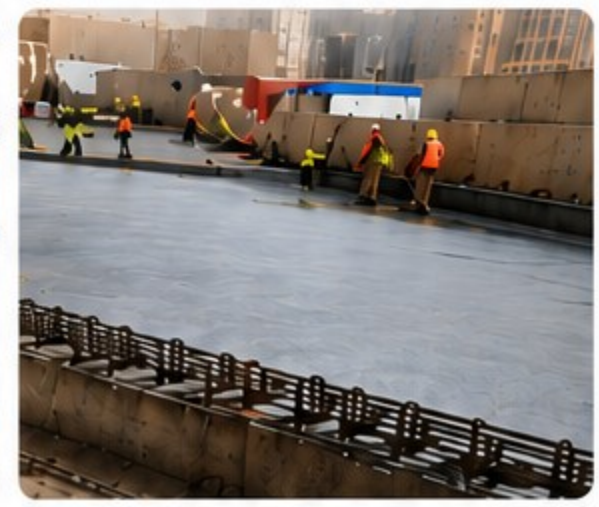

TOTAL AREA COVERED

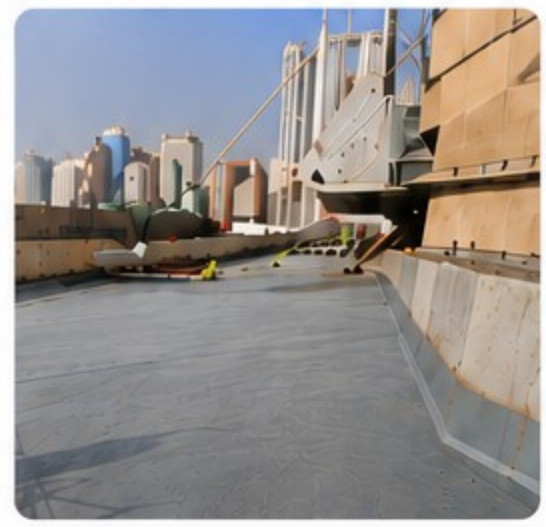

50,000

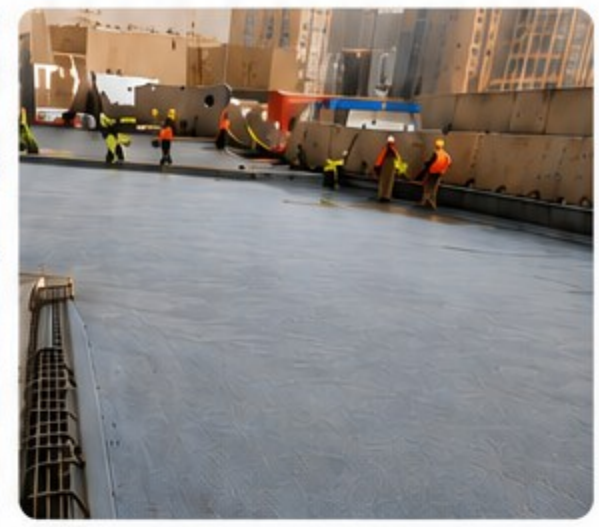

SQM

TECHNICAL PROTECTION HIGHLIGHTS

High-Performance Polyurea

Advanced hot-applied technology providing a seamless, elastomeric membrane with superior tensile strength and elongation.

Rapid Installation & Curing

Fast-setting properties allowed for efficient application and minimal downtime for the world-renowned facility.

Extreme Durability

Engineered to withstand harsh environmental conditions, UV exposure, and thermal fluctuations characteristic of the Makkah region.

Seamless Waterproofing

Ensures 100% moisture protection without joints or seams, providing long-term structural integrity for the iconic Clock Tower.

NTCC delivered this large-scale protection project utilizing specialized high-pressure spray equipment and certified technical teams to meet the stringent quality requirements of one of Saudi Arabia's most prestigious landmarks.

NTCC

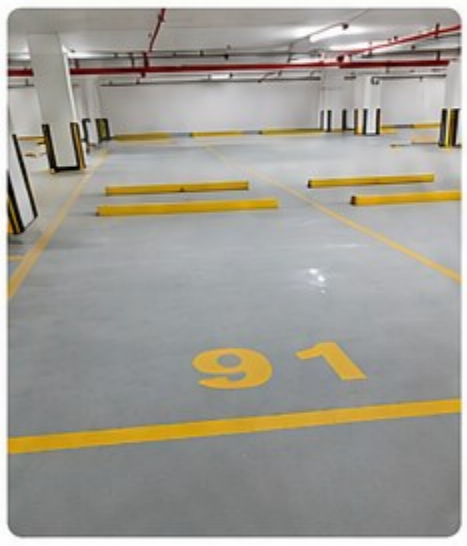

مؤسسة الهدف الجديد للمقاولات
New Target Contracting Corp.

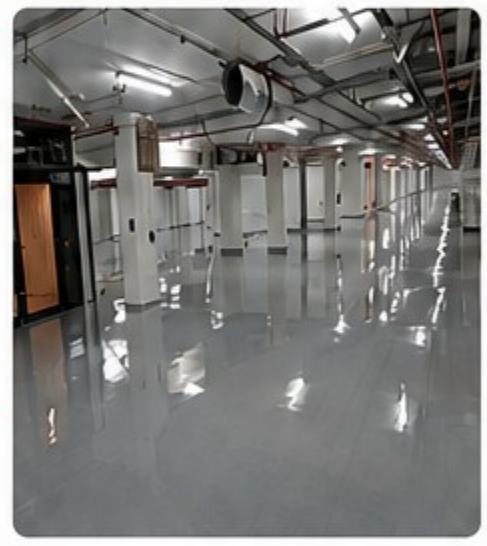

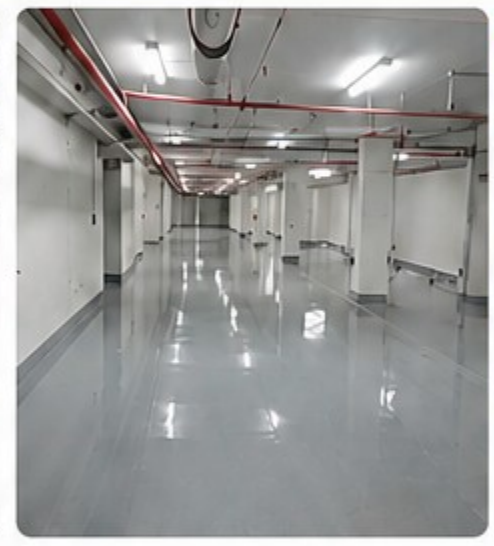

17

GALLERIA MALL JEDDAH

LOCATION
Jeddah, Saudi Arabia

PROJECT TYPE
Commercial & Retail

CAR PARKING FLOOR

Application of high-build epoxy flooring system for durable, high-traffic commercial parking areas.

3,600 m²

BALL HALL TREATMENT

Specialized installation of soundproof panels for both wall and floor surfaces to manage acoustic performance.

1,600 Lm

COLD STORE FLOORING

Heavy-duty polyurethane flooring designed for extreme temperature fluctuations and hygiene requirements.

3,600 m²

EXPANSION JOINTS

Installation of professional expansion joint gaskets within cold storage areas to ensure structural integrity.

1,600 Lm

TECHNICAL SOLUTION SUMMARY

The Galleria Mall project required a multi-disciplined approach to engineering protection. NTCC executed large-scale epoxy applications for public parking, while simultaneously managing specialized acoustic treatments and industrial-grade cold storage flooring.

HIGH-BUILD EPOXY | SOUNDPROOFING | HEAVY-DUTY PU | JOINT GASKETS

18

FEATURED PROJECT: KAU TENT HALL JEDDAH

TOTAL PROJECT SCALE

30,000 SQM

Successful supply and application of high-performance hot-applied polyurea coating systems for the Tent Hall at King Abdulaziz University. This specialized solution provides a seamless, high-durability protective membrane designed for extreme environmental resilience.

Technical Scope & Execution

HIGH-PRESSURE APPLICATION

Utilization of specialized heated high-pressure plural component spray equipment for precise polyurea delivery.

PROTECTIVE PERFORMANCE

Engineering a seamless, waterproof, and abrasion-resistant barrier suitable for large-scale structural protection.

QUALIFIED TECHNICAL TEAM

Execution by NTCC's certified engineers and skilled technicians ensuring adherence to international safety and quality standards.

19

FEATURED PROJECT:
MENABEV PEPSI MEGA PLANT

CLIENT & FACILITY
MenaBev / PEPSI
Mega Plant Factory

JEDDAH, SALLOH
ARABIA

PROJECT OVERVIEW

Comprehensive engineering protection and finishing solutions for one of the largest beverage manufacturing facilities in the region. The project required high-performance industrial flooring and structural repairs to support intensive 24/7 manufacturing operations.

INDUSTRIAL FOCUS

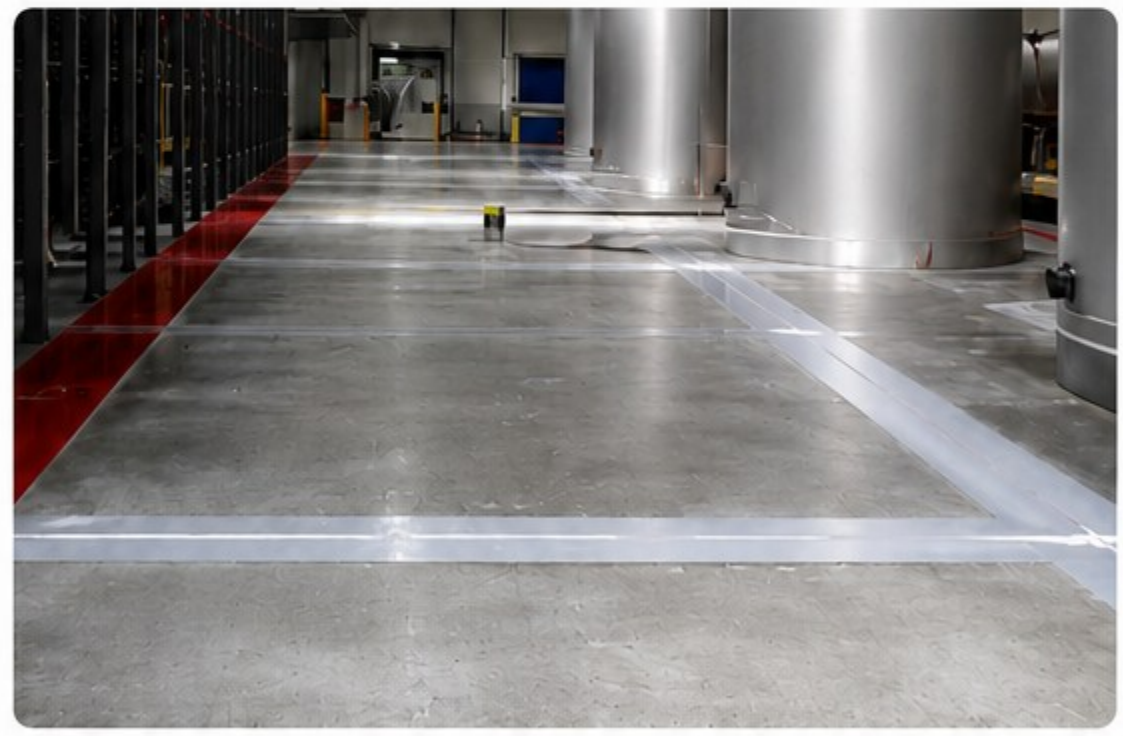

Solutions were engineered to withstand chemical exposure, heavy machinery traffic, and rigorous hygiene standards essential for food and beverage production environments.

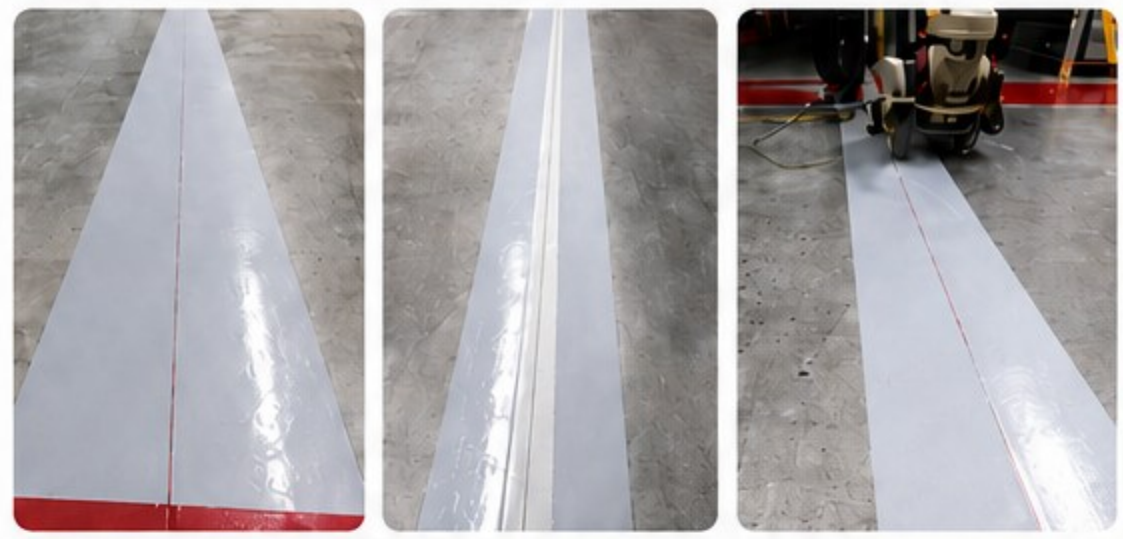

FLOOR EXPANSION JOINT REPAIR, EPOXY FLOORING & LINE MARKING
15,000 m²

HEAVY-DUTY POLYURETHANE FLOORING SYSTEMS
7,500 m²

SPECIALIZED CORROSION REPAIR & PROTECTION
2,000 m²

Technical Reference: *Additional expansion joint repairs recorded at 1,500 Lm and specialized flooring applications.*

PROJECT HIGHLIGHTS

HIGH PERFORMANCE
Durable flooring systems engineered to withstand intensive operations and heavy loads.

CHEMICAL RESISTANCE
Superior resistance to chemicals, oils, and spills ensuring long-term protection.

HYGIENE & SAFETY
Seamless, easy-to-clean surfaces that meet strict food & beverage hygiene standards.

24/7 RELIABILITY
Built for continuous operations with minimal downtime and maximum performance.

Jeddah, Saudi Arabia

INDUSTRY

Pharmaceutical / Medical

PROJECT SCALE

8,000 SQM

SCOPE OF ENGINEERING WORKS

Metal Roof Waterproofing

Comprehensive protection system designed for industrial metal roofing to ensure long-term structural integrity.

Asset Protection

Advanced coating solutions to prevent leaks and environmental damage to sensitive medical inventory.

Thermal Resilience

Application of specialized materials to withstand high-temperature fluctuations typical of the Jeddah region.

Quality Assurance

Execution by qualified engineers and skilled technicians following strict industrial pharmaceutical standards.

NTCC delivered a high-performance waterproofing system for Jamjoom Medical Industries' warehouse facility, focusing on durability and compliance with pharmaceutical warehousing safety requirements.

22

BMW WAREHOUSE, JEDDAH

Comprehensive metal roof waterproofing and protection system for Mohamed Yusuf Naghi Motors' BMW Workshop and Warehouse facilities in Jeddah, ensuring long-term structural integrity and industrial asset protection.
